

LUKMAN KUNVENG

Data Scientist | Analytics & AI Solutions

+233 248 653 219 | lukmankunveng@gmail.com | Accra, Ghana | github.com/MrKunveng | lukmankunveng.netlify.app

PROFESSIONAL SUMMARY

Data Scientist with 3+ years of experience building AI and machine learning solutions for business impact. Proven track record in predictive analytics, data-driven decision support, and deploying end-to-end ML systems. Achieved 95.2% accuracy in disease prediction using ensemble ML and LLMs, and delivered measurable revenue growth through recommendation engines. Former banking professional with hands-on experience in credit risk assessment, treasury operations, and financial analytics. Combines deep technical expertise with strong domain knowledge in financial services.

CORE COMPETENCIES

Programming:	Python, R, SQL	Cloud & Tools:	Microsoft Azure, Streamlit, Git
Machine Learning:	Scikit-learn, TensorFlow, PyTorch	Analytics:	Predictive Modelling, Statistical Analysis
AI & NLP:	LLMs, GPT, Rasa, Hugging Face	Financial:	Credit Risk, Treasury, Portfolio Analysis
Visualisation:	Power BI, Matplotlib, Seaborn	Office Suite:	Advanced Excel, Word, PowerPoint

PROFESSIONAL EXPERIENCE

Data Scientist (Hybrid)	Oct 2025 – Present Dubai, UAE
<i>Armishumair for Social Media Applications – United Arab Emirates</i>	
- Designed and maintained dynamic performance dashboards using Power BI and advanced Excel to track KPIs across pipeline, conversion, and revenue metrics. - Developed and deployed AI-powered recommendation systems and customer segmentation models, driving 25% revenue growth during peak season. - Built and optimised content-based recommendation engines for product upselling, increasing attach rates and average transaction value. - Delivered data-driven reports and forecasts to senior leadership, translating complex analytical insights into actionable business strategy. - Conducted end-to-end data pipeline management – from data collection and cleaning to model evaluation, and deployment.	
Software Development Consultant	Nov 2024 – May 2025 Accra, Ghana (Remote)
<i>Ayzee A.I & Technology</i>	
- Identified, designed, and deployed AI-driven solutions automating digital workflows across multiple client projects, enhancing operational efficiency. - Provided expert-level programming support including debugging, code optimisation, and end-to-end software implementation.	
Azure Data Scientist	Jun 2023 – Jul 2024 Saint-Quentin, France (Remote)
<i>Sensor6ty / ai4Sense</i>	
- Engineered a high-accuracy speech-to-text system, boosting transcription performance across diverse accents and noisy environments. - Developed a Voice Assistant chatbot using Rasa and GPT-3 for media-player interaction, improving automation and accessibility. - Evaluated and optimised speaker diarisation techniques for multi-speaker audio, enhancing conversation segmentation quality. - Applied advanced ML techniques in Python and R for data analysis, visualisation, and production-grade research pipelines.	
Direct Sales Executive	Jan 2019 – Dec 2020 Accra, Ghana
<i>First Atlantic Bank Ltd</i>	
- Expanded customer base through strategic prospecting and relationship management, contributing to deposit mobilisation and product uptake. - Assessed creditworthiness of loan applicants and delivered risk-based recommendations, supporting high-quality credit decisions and portfolio growth.	
Assistant Treasury Trainee	Sep 2018 – Dec 2018 Accra, Ghana
<i>Energy Commercial Bank Ltd</i>	
Participated in Money Market trading activities and contributed to strategic financial decision-making.	

- Monitored the bank's interest rate positions and Net Open Position, ensuring optimal financial stability.

Intern – Data & Underwriting	Jun 2017 – Dec 2017
<i>SIC Life Insurance Ltd</i>	Techiman, Bono East
• Performed time-series analysis of monthly claims data to identify predominant patterns for management decision-making. • Processed underwriting tasks and prepared policy documentation.	

EDUCATION

Master of Mathematical Sciences – Data Science	Oct 2022 – Jul 2024
<i>African Institute for Mathematical Sciences (AIMS)</i>	Mbour-Thiès, Senegal
Grade: 84/100 (Very Good Pass) Thesis: IoT and AI for Secure Remote Healthcare Monitoring	
Certificate of Effective Healthcare Management	Sep 2023 – May 2024
<i>University of Toronto Mississauga (MasterCard Scholarship)</i>	Canada (Online)
Healthcare governance, strategy, finance, risk management, data analysis & digitisation	
Bachelor of Science – Actuarial Science	Sep 2014 – Jul 2018
<i>University for Development Studies</i>	Tamale, Ghana
CGPA: 3.85/5.0 (Second Class Upper Division)	

KEY PROJECTS

AI for Secure Remote Healthcare Monitoring	GitHub Live Demo
• Built a prototype achieving 95.2% accuracy and F1 score by integrating an ensemble ML model with MedGemma 4b-it for disease prediction and clinical triage. • Deployed an interactive Streamlit Cloud application for patient vitals input, risk analysis, and AI-guided triage feedback.	
PDF Merger Application	GitHub Deployed
• Developed a Streamlit web application for merging multiple PDF files, deployed on Streamlit Cloud for free public access.	

PUBLICATION & AWARDS

- **Publication:** *Improving Speech Recognition for Ghanaian Accents Using Transformer-Based Accent Classification* – Accepted.
- **Best Paper Runner-Up Award** – PA-AISS 2025 Conference, for research quality, originality, and impact.
- **AIMS Cooperative Program Scholarship** – MasterCard Scholars Foundation & AIMS-Senegal, 2022–2024.
- **Healthcare Management Scholarship** – MasterCard & University of Toronto Mississauga, 2023–2024.

PROFESSIONAL CERTIFICATIONS

ALX Africa Data Science Programme	Jan 2025– Feb 2026
Microsoft Certified: Azure AI Fundamentals	May 2024
<i>Verify Certificate</i>	
Google Data Analytics – Foundations	Apr 2023
<i>Coursera</i>	
Advanced Learning Algorithms	Mar 2023
<i>DeepLearning.AI & Stanford Online – Coursera</i>	
Machine Learning A-Z: Python & R	Mar 2023
<i>Super Data Science – Udemy</i>	
Supervised ML: Regression & Classification	Jan 2023
<i>DeepLearning.AI & Stanford Online – Coursera</i>	

LEADERSHIP

President, Actuarial Science Students' Association (2017/2018)

LANGUAGES

English (Native) | Arabic (Basic)
